#### Harmonizing Provisions of Governing Documents - [Issue Tracking](#)

**Issue Status** – All open problem statements for GDECS complete. The group will continue to meet on an as-needed basis.

#### Progress Update

GDECS met on December 2, 2016 to discuss the possibility of creating a governing document that holds all definitions. After further deliberations after the December 2, 2016 meeting, PJM feels it needed some additional time to strategize on the proposed consolidation of all definitions within the OA, RAA and Tariff while maintaining 205 and 206 filing rights. It is also investigating additional technology-driven solutions that may better address this issue.

GDECS batch 1 and 2 changes to governing documents were presented at the December 22, 2016 at the MRC. Both batches will be up for vote on January 26, 2017 MRC.

The next GDECS meeting is tentatively scheduled on May 10, 2017.

#### Action Requested

- Prepare to vote on phase 2 batch 1 & 2 items at MRC on January 26, 2017.
