

DER Ride Through Task Force (DERRTTF) Monthly Progress Report

MC Webinar
April 22, 2019

The DER Ride Through Task Force (DERRTTF) was endorsed by the [Planning Committee](#) in November 2018 and is tasked with arriving at PJM-wide consensus across Transmission and Distribution on preferred IEEE 1547-2018 Ride-Through/Trip Settings for DER. The deliverables will be Ride-Through/Trip settings, proposed PJM manual language changes or other applicable PJM governing documents, and a guide of best practices for state/local regulators.

Progress Update

Next meeting is a webex only on April 23, 2019 from 9 – 10 AM.

Design components have been compiled in the options matrix. Stakeholder feedback to this point has been light and no more education from stakeholders has been requested. Our April 23 meeting will review an upcoming poll to stakeholders.

Action Requested (if necessary)

None
