

PC Special Session: Storage as a Transmission Asset Monthly Progress Report

9/14/2020

1. [Storage as a Transmission Asset \(SATA\)](#)

Issue Status

The PC Special Session: Storage as a Transmission Asset (SATA) is currently discussing design components and solution options.

Target Completion

12/31/2020

Progress Update

The group had two meetings in August. During those meetings, the group finished interest identification and began design components, status quo and solution options. The next meeting will continue design component development and solution option identification. They will also begin proposing packages.

An additional SATA meeting was added to the calendar on October 9, 2020 and is open for registration. An updated work plan will be discussed at the September 25th meeting.

Action Requested (if necessary)

Stakeholders are asked to submit design components or solution options for inclusion as well as package proposals to the September 25 meeting.
