

Cost Development Subcommittee Monthly Progress Report

May 15, 2023

Fuel Cost Policy

Issue Status

- PJM led an MIC special session for Variable Operating & Maintenance (VOM) education on May 10th. This was for those who compile and submit VOM data in 2023 to refresh the process and illustrate how recent OA and M15 revisions will be incorporated into the 2023 VOM submission.
- A reminder on the Fuel Cost Policy Periodic review was given as well as a review of the fuel cost penalty statistics
- A discussion took place around inclusion of the Start Cost Calculation in the Cost Offer Calculation template.

Target Completion

There are no current issues being worked on at CDS.

Progress Update

The next CDS meeting will be held in July and discussion will begin on the topics of Condensing costs and Pumping costs.

Action requested (if necessary)

There will be a Start Cost education session on **March 13th 3:00 – 5:00 pm**
