

# Subregional RTEP Committee – DLCO Supplemental Projects

March 17, 2023

# Needs

Stakeholders must submit any comments within 10 days of this meeting in order to provide time necessary to consider these comments prior to the next phase of the M-3 process

**Need Number:** DLC-2023-001

**Process Stage:** Needs Meeting – 3/17/2023

**Supplemental Project Driver(s):**

Customer Service and Infrastructure Resilience

**Specific Assumptions Reference:**

Slides 9 and 10 of the DLC 2023 Local Planning Assumptions.

**Problem Statement:**

Load growth in Pittsburgh’s North Shore and surrounding areas driven by new customer connection requests have presented concerns regarding DLC’s existing distribution infrastructure and its ability to serve its customers. There is also a need to add an additional transmission source to supply Pittsburgh’s Downtown Network. As such, additional capacity and resiliency is needed to provide adequate distribution service to these areas.
