Product Details

- The Resource Tracker tool provides generation owners a single view of generator ownership information as recorded across various PJM applications. All participants that own a share of generation assets, and any participants responsible for offering resources into the Energy or Ancillary Service Markets via Markets Gateway will be asked to confirm ownership details on an annual basis to ensure up-to-date information is maintained.

- Created in 2013 to provide a single point mechanism for Generation Owner Information
- In December 2018, Stakeholders endorsed changes to move confirmation period to Annually with a 4 week duration
- In 2019 and 2020, further enhancements were made to field logic and formatting
