

Draft Final Agreements

January 2024 IPS

Dylan Seeley

Sr. Engineer

Interconnection Projects

Final Agreement Negotiation Phase Timeline

Expedited Process Specific Timing

- **OTB Election:** 30 days from receipt of Facilities Study
- **Security:** due with final agreement execution

Full Execution

PJM will provide Project Developer (PD) and Transmission Owner (TO) an electronic draft of interconnection agreement.

▷ **PD and TO**
have 20 Business Days to
return written comments.

▷ **PJM** will have 10 Business Days
to respond and provide revised
agreements, as appropriate.

- PD/TO/PJM may not use more than 60 days to negotiate.
- PJM may extend this phase beyond 60 days.
- Can file agreement unexecuted if an impasse is reached.

DRAFT AGREEMENTS

PJM will send draft agreements via DocuTrack.

TO/PD main contacts will receive email with link to draft agreements.

Facilities Studies will be posted to the website.

- Edits and comments can be made directly in Word document.
- Access to documents will be limited to 20 Business Days.
- PD and TO can access documents at same time.
- All edits will be tracked via Tracked Changes in Word.

Email will be from PJM PM

Subject: AE1-056 DRAFT GIA FOR REVIEW

To:

DocuTrack

Dylan Seeley shared a file with you

DRAFT GENERATION INTERCONNECTION AGREEMENT

Pursuant to Part VII, Section 314 of the PJM Open Access Transmission Tariff (Tariff), a draft Generation Interconnection Agreement (GIA) defining Project Developer's cost responsibility for the construction of the required Transmission Owner Interconnection Facilities, Network Upgrades, Distribution Upgrades, and Other Charges (as applicable), specifying Project Developer's interconnection rights, and obligating Project Developers to abide by the rules and procedures pertaining to generation in the PJM control area, is enclosed for review.

The scope and cost estimates provided in the draft GIA are based on the Facilities Study that is now posted on the PJM website. Facilities Studies provide a good-faith estimate of the engineering design work, the cost to be charged to Project Developer for Transmission Owner Interconnection Facilities, Network Upgrades, Distribution Upgrades, and Other Charges necessary to accommodate the Project, and time required to complete detailed design and construction of the facilities and upgrades.

The costs associated with the Facilities Study are being tabulated and a final statement/invoice will be submitted electronically from PJM detailing the balance within 120 days.
