

Manual 03, Revision 66 Transmission Operations

Rob Dropkin, Sr Engineer I
Transmission Operations

Systems Operating Subcommittee
April 26, 2024

Revision 66 (05/22/2024):

- Periodic Review
- **Section 1.1 - Updated note regarding registered Transmission Operator (TOP) exceptions**
- Section 2.1.1.2: Updated Dynamic Line Rating Notice requirement.
- Section 3.2 and 3.9: Added transient voltage criteria and controlling actions.
- Section 4.2.9: Added rescheduling rules for cancelled tickets. **[language revised]**
- Attachment A: Removed Homer City RAS due to retirement.

***changes since first read**

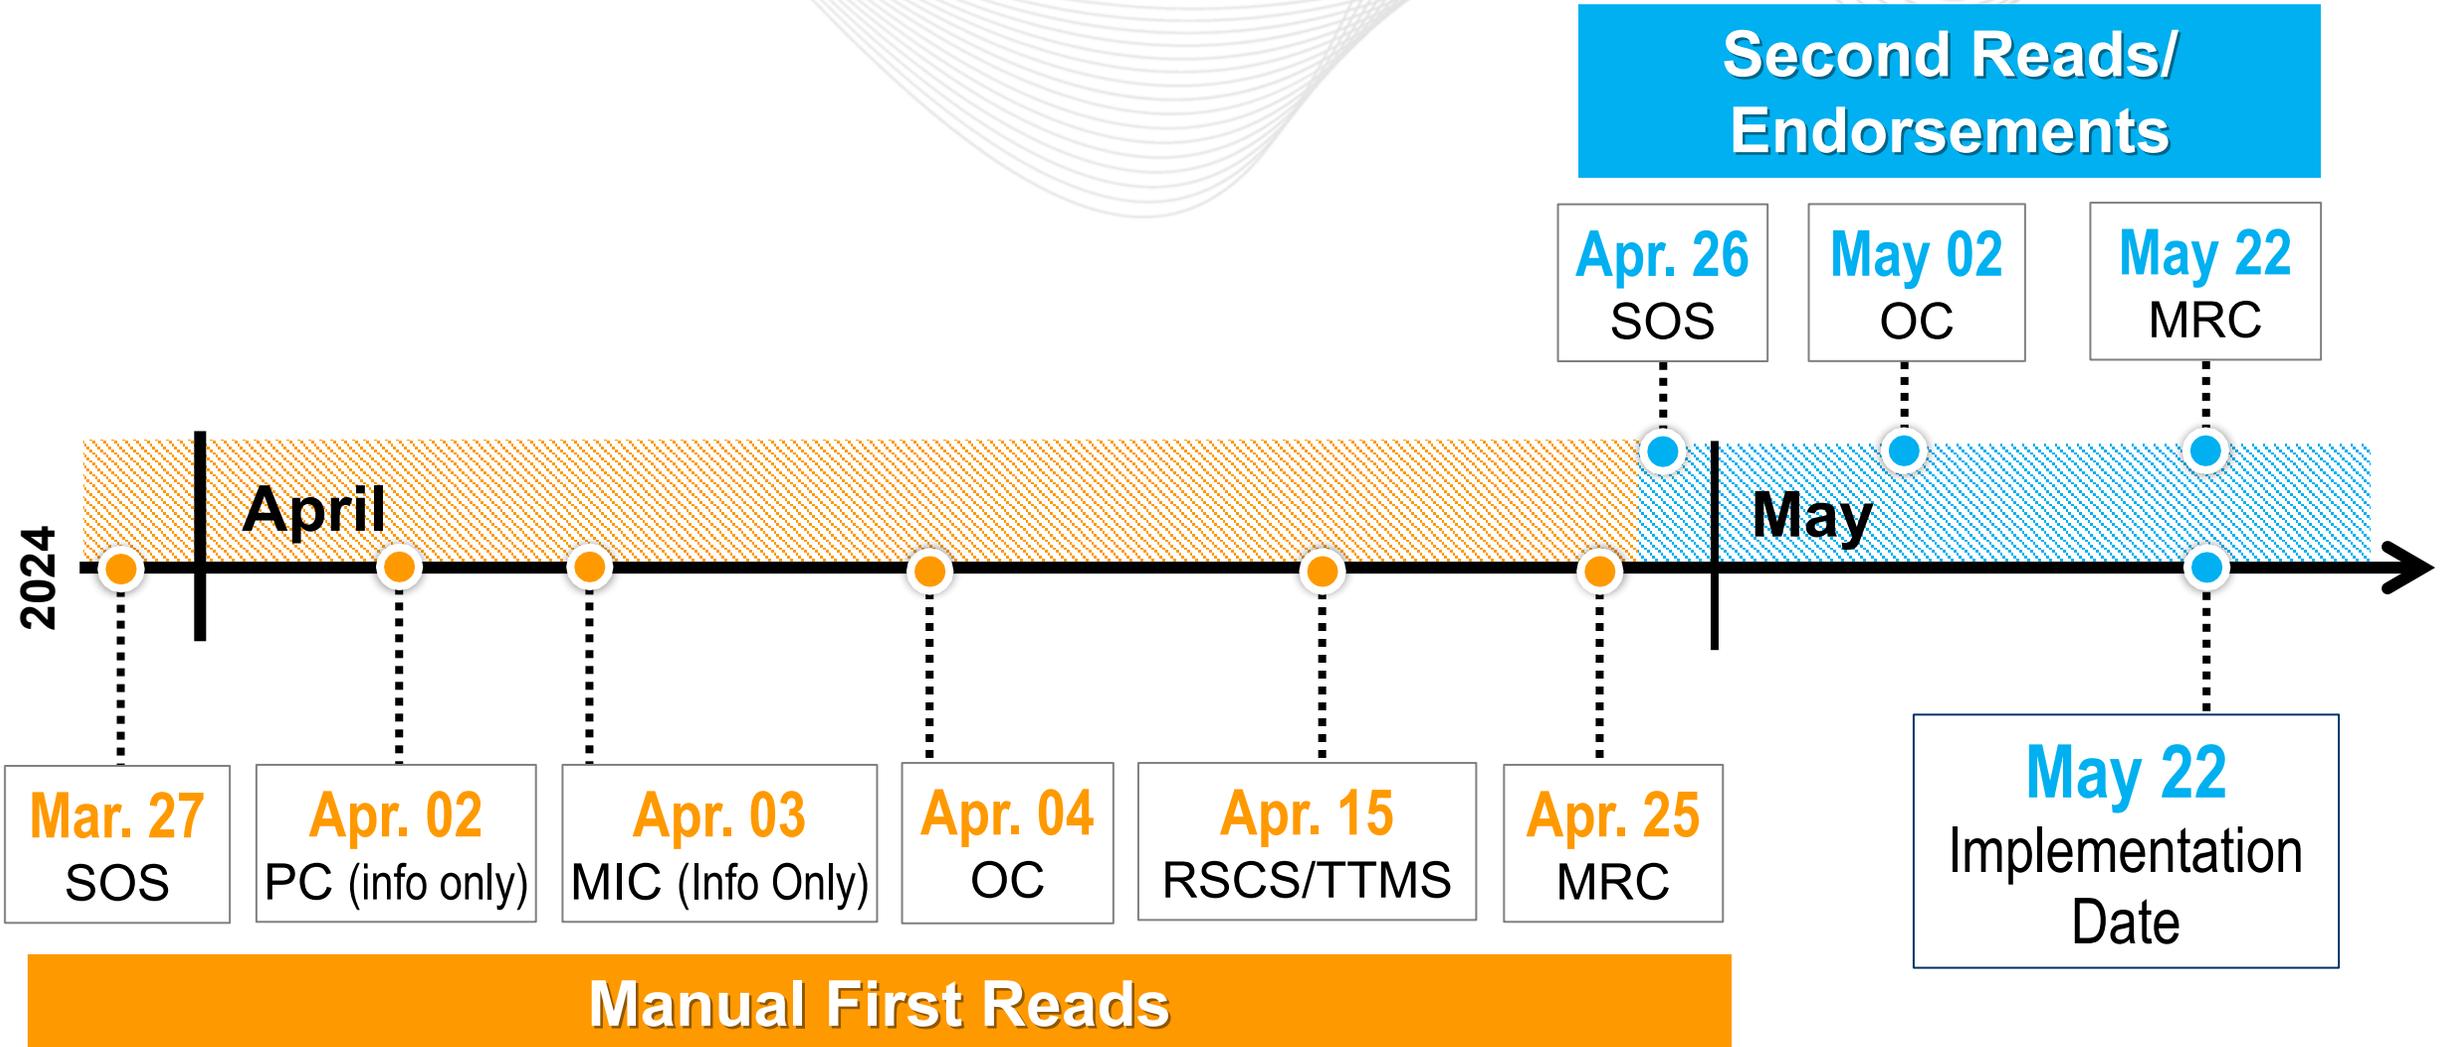

- Section 1.1:
 - updated to align with PJM's Compliance bulletin CB026 language

Note:

PJM is the Transmission Operator (TOP) for its footprint except ~~for the following:~~ ~~F~~ facilities at or below 138kV that are owned and operated by American Electric Power (AEP) and the buswork at the U.S. Department of Energy Facility at Portsmouth (OH). Under normal operating conditions, the registered TOP will coordinate with PJM to re-dispatch generation

- Section 4.2.9:
 - New language revised based on Transmission Owner feedback

Revisions to cancelled "On-time" tickets made within the same calendar month of cancellation will retain "On-time" status provided the rules for rescheduling outages listed above are met based on the originally scheduled dates.
