2. EDUCATION (1:10-2:40)

- Mr. Horger presented further education material on ARR / FTR Underfunding in response to several member data requests from the June 11th meeting.
- Several additional requests for data were raised throughout the presentation. Mr. Anders requested all items be emailed to: David.Anders@pjm.com; Tim.Horger@pjm.com; Brian.Chmielewsk@pjm.com. Monitoring Analytics data requests can be sent to: Howard.Haas@monitoringanalytics.com.
- Mr. Hayik commented that the each SOM report contains explanatory data for counter flow FTR impacts on FTR Underfunding.
- Mr. Singh presented one slide on CFTC requirements for FTRs. Mr. Singh noted that adding balancing congestion changes the current definition of the FTR product. Concerns were expressed in regards to being compliant with these requirements.

3. BREAK (2:40-2:50)

4. EDUCATION CONTINUED (2:50-3:50)

- Mr. Hayik and Mr. Haas presented education materials on past FTR underfunding, in particular the impact of UTC transactions on balancing congestion. It was the opinion of MA that modeling differences are the main causes of FTR underfunding, however to the extent that model differences exist, UTCs have exacerbated the problem of negative balancing congestion.

5. INTEREST IDENTIFICATION (3:50-3:55)

- It was the group consensus to begin interest identification at the July 16th meeting due to time constraints.

- Mr. Anders used the remaining time to review the CBIR process. Manual 34 can be referenced for further detail.
- Mr. Singh offered a comment to the group to consider the unpredictability of recent FTR funding. As this becomes more difficult to handle, perhaps some kind of mechanism to ensure predictability of funding for a planning year can be implemented.

6. DESIGN COMPONENT DEVELOPMENT (3:55-4:00)

- Design component development will begin at the July 16th meeting.

7. REVIEW OPEN ACTION ITEMS AND FUTURE AGENDA ITEMS
