

Informational Items – Risk Modeling and Accreditation

CIFP - Resource Adequacy
August 14, 2023

- The 26/27 Class Ratings of 24x7 DR are approximately equal to the Seasonal Forecast Pool Requirement (FPR) values
 - Summer FPR (expressed as share of the annual peak): 109%
 - Winter FPR (expressed as share of the annual peak): 89%
- Effectively, under the above accreditation, 1 MW ICAP of 24x7 DR cancels the need to procure reserves for 1 MW of load

- Two files have been posted with the 08/14 meeting materials
 - Data for Heatmaps in 20230727 CIFP Presentation.xlsx
 - Data for Pie Graphs in Slide 57 in 20230727 CIFP Presentation.xlsx
