

## PC Special Session: Critical Infrastructure Stakeholder Oversight Monthly Progress Report

MC Webinar  
February 18, 2020

### 1. Critical Infrastructure Stakeholder Oversight

#### **Issue Status**

The Critical Infrastructure Stakeholder Oversight special session group is starting to identify design components and options in the matrix.

#### **Target Completion**

The current work plan is targeting July 2020 to present solution packages to the Planning Committee.

#### **Progress Update**

The first meeting of this group was held on Monday, January 27. Stakeholders were given education on the NERC CIP 014-02 standard, and CEII protections. Stakeholders also had the opportunity to provide interests.

The second meeting was held on Wednesday, February 12. Additional education on the NERC standards review and approval process was provided, as well as an update on neighboring RTOs compliance with this NERC standard. Stakeholders continued to identify interests, and started to identify design components in the matrix.

#### **Action Requested (if necessary)**

No action requested at this time.
