

Special MIC – Modeling Generation Sr. Task Force Monthly Progress Report

5/26/2020

Modeling Generation in Markets Gateway

Issue Status

Issue of modeling of soak time was remanded back to the MGSTF at the 12/19/19 MRC meeting. Issue was re-voted at the MGSTF. Implementation of the soak time parameter failed the vote at the MGSTF with 14% in favor. It will not advance forward to the MRC.

Target Completion

Voting results will be reviewed at the May 15 MGSTF. Next steps for the MGSTF will also be discussed at the May meeting.

Progress Update

Soak time implementation failed the vote at the MGSTF with 14% support. This completes the work of the original charter of the MGSTF. Guidance will be sought at the May MRC as to next steps for this task force.

Action Requested (if necessary)

None
