

Special MIC – Modeling Generation Sr. Task Force Monthly Progress Report

6/15/2020

Modeling Generation in Markets Gateway

Issue Status

Issue of modeling of soak time was remanded back to the MGSTF at the 12/19/19 MRC meeting. Issue was re-voted at the MGSTF. Implementation of the soak time parameter failed the vote at the MGSTF with 14% in favor. It will not advance forward to the MRC. The MRC was provided this update at their May 28, 2020 meeting.

Target Completion

MGSTF will have one more meeting on June 10 to finalize their work. The group will then discuss going on hiatus or sunseting.

Progress Update

Soak time implementation failed the vote at the MGSTF with 14% support. This completion of the work of the original charter of the MGSTF will occur at the June 10 MGSTF meeting.

Action Requested (if necessary)
