

First Read Manual 19 Update Residential Measurement and Verification

Shira Horowitz
Demand Response Operations
Market Implementation Committee
June 10, 2015

- Manual 19 Changes for Residential M&V originally approved 11/2014
- Issue: Some EDCs cannot share personally identifiable information for residential customers participating in Demand Response programs.
 - Previously approved M19 language specified EDC account number and service address required at registration
- Solution: Require EDC account, PLC, zip code
 - If legal/regulatory conditions prohibit provision of EDC account, EDC may use unique ID numbers instead through 5/31/2016 or otherwise approved by PJM
