

### FTR Ownership Disclosure

*Includes Problem/Opportunity Statement*

#### **Issue Source**

DC Energy

#### **Stakeholder Group Assignment**

Market Implementation Committee

#### **Key Work Activities**

Stakeholders discuss: (i) the history of current FTR market award ownership disclosure posting practices; (ii) other PJM public data (i.e., capacity, energy, virtual energy, ancillary services, generation and load) award ownership disclosure posting practices; (iii) PJM governing documents (e.g., Manual 33) to determine applicability; and (iv) discuss whether changes are warranted.

#### **Expected Deliverables**

Stakeholders recommend potential changes to the PJM Tariff, Operating Agreement, business practices and/or manuals.

#### **Expected Overall Duration of Work**

3-5 months.

#### **Decision-Making Method**

Utilize the Tier 1 decision-making method (i.e., consensus on a single proposal), however DC Energy would certainly entertain multiple alternatives.
