

M-12 v41 Change Summary

Nikki Militello

Real Time Market Operations

Markets Implementation Committee

February 5, 2020

- FERC approved PJM's External Capacity filing in November 2017
- PJM originally updating Manual 12, Attachment F to incorporate approved External Capacity rules in February of 2018
- PJM is now updating Manual 12, Attachment F to provide additional clarity and update manual references associated with the Pseudo-Tie Eligibility Criteria
- Planning based changes to Manual 12, Attachment F were presented during the February 2018 Planning Committee (PC) meeting

- Attachment F
 - Section F.2: Dynamic Transfer Request Process Flow
 - This Section was revised to provide additional clarity around the eligibility criteria approved by FERC in the External Capacity Filing. In addition, references to other PJM manuals were updated to reflect the proper sections.
 - Section F.3: PJM EMS Modeling Requirements for Implementing Pseudo-Ties
 - References to other PJM manuals were updated to reflect the proper sections.
