

# **Interregional Coordination Update**

Joseph Ciabattoni Manager, Interregional Market Operations Markets Implementation Committee June 3, 2020

**MISO/PJM Joint Stakeholder Meeting** 

C

The most recent Joint and Common Market meeting was held on February 25, 2019

The next joint stakeholder meeting will be hosted by PJM on August 18, 2020 in-person or via WebEx

Meeting materials are posted approximately one week in advance at the <u>PJM/MISO Joint and Common Market Initiative</u> as well as the <u>Joint and Common Market</u> websites

### Tentative Planned 2020 PJM-MISO JCM Topics

• Interregional Planning

# Market Issues

Planning

Issues

Freeze DateM2M Enhancements

# Administrative

- M2M Settlement Adjustments
- Issue Status
- Biennial Review

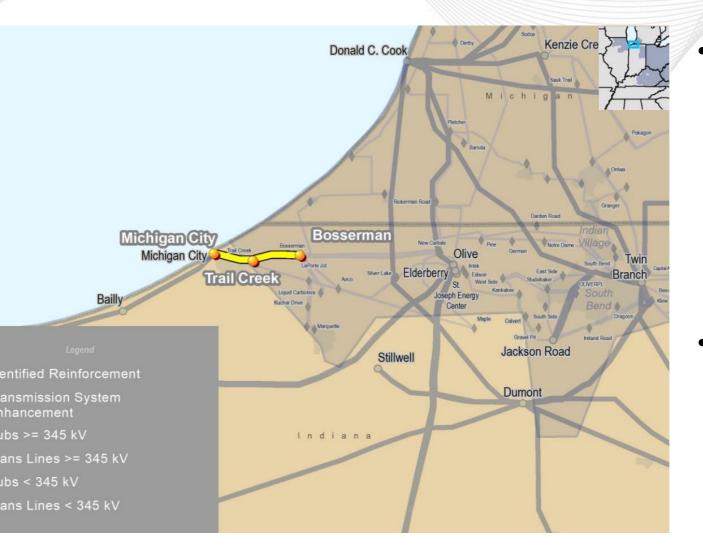

## Submit additional Stakeholder topics Joseph.Ciabattoni@pjm.com

- PJM-MISO Issue Status & Market-to-Market Settlement Adjustments
- Issue status and drill down reports available at below websites:
  - PJM/MISO Joint and Common Market Initiative
  - Joint and Common Market
- Biennial Review of MISO-PJM Joint Operating Agreement:
  - <u>https://pjm.com/markets-and-operations/energy/market-to-market.aspx</u>
- Pending market-to-market settlement adjustments
  - Pseudo-Tie Overlapping Congestion (PTOC) Settlement was filed with FERC March 18, 2020, MISO and PJM are waiting for FERC approval.

### Interregional Market Efficiency Project

- The PJM Board approved project b3142 (BT-481), the rebuild of Michigan City to Trail Creek to Bosserman138kV lines, December 3, 2019
  - The approval is conditional on MISO approval of same project
- MISO included Project NC-11 in Appendix B of MTEP19 Approved by Board
  - MISO expects Board approval in June 2020

PJM / NYISO Initiatives

- PJM and NYISO discussed changes to the current Firm Flow Entitlement (FFE) calculation:
  - PJM and NYISO implemented updated FFEs on April 7, 2020

- PJM and TVA continue to review the Joint Reliability Coordination Agreement (JRCA)
  - General review of JRCA
  - Updating Article IX Planning section
  - Adding LGE-KU to the JRCA
  - Final language is being moved through the TOA-AC and PC for planning changes
  - FERC filing for changes (as it applies to PJM and LGE-KU) expected in Q3, 2020
    - Updates will be reviewed with PJM Stakeholders prior to FERC filing
      - OC, MC Webinar

7

- Status
  - JOA changes were filed with FERC on December 19, 2019
  - MISO-PJM submitted a clarification filing on February 18, 2020
  - FERC accepted the filing March 6, 2020
  - Deactivation of Constraint Relaxation on MISO-PJM M2M flowgates was delayed due to software issues
    - MISO and PJM are testing new software release
    - Expected implementation either June 9 or July 1, pending successful completion of testing

### PJM-MISO Freeze Date and Firm Flow Entitlements Reference date of April 1, 2004, known as "Freeze date", is used as a mechanism to determine firm rights on flowgates based on premarket firm flows.

- CMP Members (PJM, MISO, SPP, TVA, Manitoba Hydro, and LGE/KU) have been developing a collaborative solution to update these firm rights
- CMP Members are working on the final items for the Phase 2 solution:
  - Phase 2 implementation date will be determined when individual Planning discussions are completed by each entity
    - CMP members have developed design components for the Phase 2 solution
      - Firm Flow Entitlement (FFE) solution is almost finalized; Firm Flow Limit (FFL) rem open item
    - Discussions will continue to finalize design components and whitepaper
    - Stakeholder education will occur during future MIC and JCM meetings
      - Stakeholders will be updated prior to FERC filing

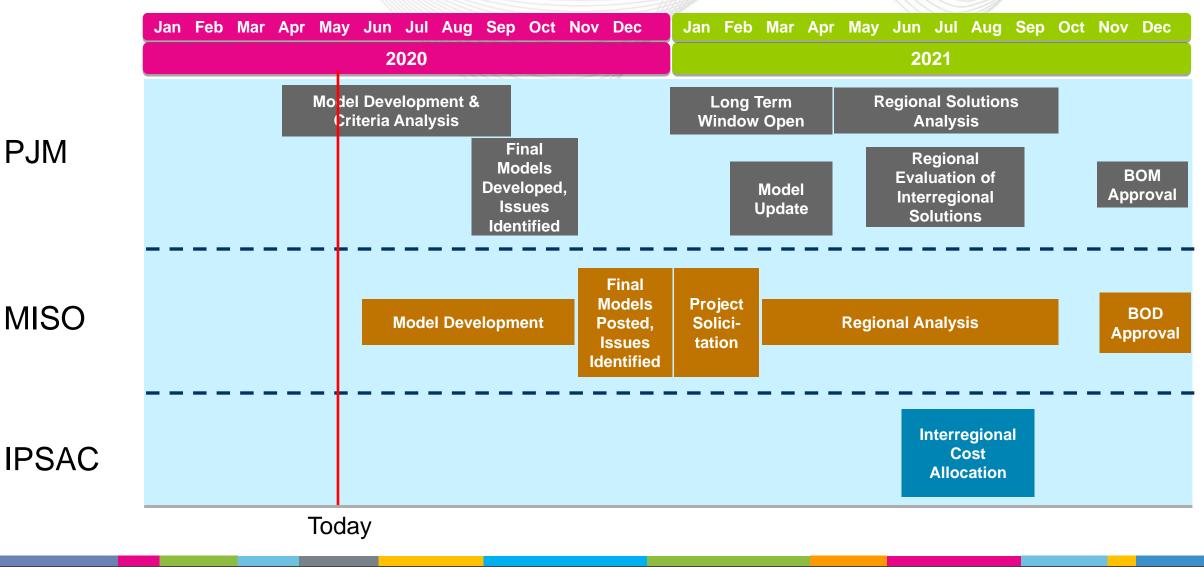

- PJM and MISO are conducting a two-year Interregional Market Efficiency Project (IMEP) study in 2020/2021
- Issues identification and benefit determination conducted in each regional process consistent with current effective JOA
- Interregional proposals must:
  - Address at least one identified issue in each region
    - (could be same issue if identified by both RTOs)
  - Be submitted to both regional processes

- Benefits to each RTO are determined by that RTO using their respective regional process and metrics (Tariff)
  - Note inconsistent study years and discount rates
- Costs are allocated inter-regionally based on pro rata share of benefits, as determined above
- Interregional projects must meet the B/C criteria in each RTO (based on allocated costs), qualify as an MEP under both the MISO and PJM process, and be approved by each RTO's board
- Final recommendations will be presented to the PJM Board of Managers for consideration in the November-December (2021) time frame

#### Market Efficiency - Estimated Timeline

#### **MISO-PJM JOA Changes Constraint Relaxation**

- Key Takeaways
  - MISO/PJM pursuing turning off Constraint Relaxation on M2M flowgates
  - Constraint Relaxation was deactivated:
    - MISO for internal constraints on Feb 1, 2012
    - PJM for internal constraints on Feb 1, 2019
  - Removal of Constraint Relaxation allows constraints that would otherwise unbind to bind at the penalty factor
  - More consistent dispatch and market signals

#### Pseudo-tie Congestion Overlap Final Settlement

#### Final settlement filed with FERC on March 18, 2020

- Approval requested in sixty days
- If approved by the Commission, the Settlement will resolve issues set for hearing and settlement as well as those pending on appeal in petitions for review
- Settlement funded from source of excess congestion for relevant period

#### Final Settlement

Agreement (\$millions)

PJM portion of settlement based on analysis of duplicative congestion and benefits of settlement. PJM Source of Collection to Fund Settlement

Planning Period	Percentage	Source
2016/2017	42.94%	FTR Holders
2017/2018	59.36%	FTR Holders
2018/2019	-2.3%	ARR Holders
