

FTR Auction Bid Limit

Problem / Opportunity Statement

FTR auction bids are currently limited to 15,000 per corporate entity, auction round, and period. Due to the recent transition to Weekend On Peak and Daily Off Peak class types, it now takes two bids to acquire or sell an equivalent amount of hours of an FTR with the Weekend On Peak and Daily Off Peak class types as could previously be acquired/sold with one Off Peak bid. For this reason, an adjustment to the current FTR auction bid limit should be considered.
