

Effective Date	6/1/2015
Impacted Manual #(s)/Manual Title(s):	
Manual 28 -Operating Agreement Accounting	
Conforming Order(s):	
N/A	
Associated Issue Tracking Title:	Power Meter and InSchedule Data Submittal Deadlines
Committee Approval Path - What committee(s) have already seen these changes?	
MRC 1 st read date:	7/31/2014
MRC voting date:	8/21/2014
Impacted Manual sections:	
M-28: Section 5.3 - Charges for Operating Reserve M-28: Section 12.1 - Meter Error Correction Billing	
Reason for change:	
<p>This issue was brought to the MSS in the form of a Problem Statement by First Energy. Extending data upload deadlines or other methods to upload revised meter data in the Primary Settlement allows for more actual, validated data to be used in data upload processes associated with InSchedule and Power Meter reducing operating reserve charge volatility, capturing meter corrections in the hour they occurred and eliminating material swings from the Primary to the Secondary settlements.</p>	
Summary of the changes:	
<p>The draft changes address two areas, First, the changes allow for an extension for submitting Meter Correction data. Second, the changes allow load reconciliation data to be included in the calculation of Balancing Operation Reserve deviation charges. No specific manual changes are required to address the daily data submittal extensions in Power Meter and InSchedule.</p>
