

Black Start Compromise Proposal

February 24, 2021

Sponsored by PJM ICC and Exelon

Compromise Proposal

- Request that the MRC endorse the PJM proposal that received 43% stakeholder support at the Operating Committee in December 2020
- This proposal differs from the two proposals (PJM Option 1 and DOM/JPower) that were voted on at the January MRC because they have a different “term of commitment”
- The proposal up for consideration today includes a “life of unit” commitment
- The proposal was recently reviewed in detail at the Special MRC on February 16th
- For more background, see the [presentation](#) from the December OC meeting
