Key Work Activities and Scope

1. Review and provide education on the need for PJM to be served with rate, waiver and other filings that impact PJM's rights and obligations under the Governing Agreements.
2. Develop a solution to include in the PJM Governing Documents and/or Manuals, as appropriate, that addresses the concern raised in the accompanying Problem Statement/Opportunity Statement.

Expected Deliverables

Proposed Governing Document and/or Manual revision, stakeholder endorsement, and FERC filing as needed.

Decision-Making Method

Tier 1, consensus on a single proposal utilizing the CBIR Lite process.

Stakeholder Group Assignment

Special Sessions of the Markets and Reliability Committee. Given the voting structure of the MRC, in approving this Issue Charge, Members are also approving suspension of the rules regarding voting at the MRC and will not hold truncated voting should there be more than one proposal that is up for vote. Rather, the endorsed package will be the one that achieves the highest sector weighted vote above 2/3 sector-weighted vote and that is preferred over the status quo by at least a 50 percent sector-weighted vote.

Expected Duration of Work Timeline
