

# System Operations Subcommittee Update

Rebecca Carroll  
Director, Dispatch  
Operating Committee  
December 10, 2019

- 7 PCLLRWs/2 Non-Market PCLLRWs
- Winter Emergency Procedures Drill performed on November 5, 2019

- eDART
  - Working on next release which is targeted for December 18
    - Enhancements to include Small ESR (Energy Storage Resources) units in eDART.
    - New functionality to implement future model build with effective date in eDART.
    - Expansion of eDART equipment model to include loads.
    - Retirement of 'dcurvetrans', 'dcurvegen' and 'ratingscsv' XML downloads – now available via the UI reports.
    - Changes to Transmission Facilities Outage List (linesout file)
  - Company Distributed Workflow
    - For companies interested in using the CDW Unit-Task functionality:
      - Contact eDART team to be set up in Sandbox.
      - Groups and user assignments set up in Sandbox will be copied to Production.
      - Provide contact information of company officer to sign the required paperwork for Production set up.
    - Required updates to the Declaration of Authority to support the CDW Member/Agent (formerly Client/Agent) functionality are in progress.
