- Removed TCF announcement
- Removed the Internet Explorer 11 Retirement Update
- Updated Production Issues

July Demonstration

- None

August Demonstration

- None

- If there are any demonstrations you would like to see please email TechChangeForum@pjm.com

Product	Date	Issue
Data Miner	6/23/2022	Day-Ahead market results were unavailable for the default date-time combination due to an internal service caching issue. The data was available on user interface and API, however users had to use a different date-time combination to bypass the cache. PJM resolved the issue a few hours later on the same day.
Customer Service Hotline	6/28/2022 – 6/30/2022	A phone system upgrade resulted in intermittent issues fielding member calls. The problem was fully resolved on 6/30.
PJM.com	7/7/2022	A planned network change resulted in an outage that lasted longer than expected. The networks team worked with the vendor to resolve the issue.
