- The Final Rule becomes effective 90 days after publication in the *Federal Register*. Each RTO and ISO is directed to file any necessary tariff changes within 270 days of the effective date, with an additional 365 days to implement the tariff revisions.
- PJM likely to convene stakeholders on this issue through MIC special sessions
- Some overlap with existing W-DER work in this subcommittee
  - Primarily related to metering and accounting practices needed to settle wholesale energy storage at LMP when connected on the distribution system or behind a customer meter (see Section H of the Order)

- April 10 – 11, 2018
- Full notice has been posted to the DERS homepage
- PJM staff planning to participate on 1 or more panels
- DERS should consider tech conference proceedings and outcomes as we continue to evaluate the wholesale DER participation model.
