PA	Out of scope (“not subject to the IC requirements of an RTO”)
NJ	In scope (must be Class I Renewable)
MD	In scope
OH	Unclear (“customer-generator”)
DC	Out of scope (only non-PURPA qualifying facilities)
IL	Out of scope (only facil. not subject to FERC or PJM jurisdiction)
VA	In scope

PA	NEM-only: Level 1 screen for < 10 kW, Level 2 screen for < 2 MW
NJ	Level 1 screen for inverter-based < 10 kW, Level 2 for any < 2 MW
MD	Level 1 (inverter-based) screen and Level 2 (< 2 MW)
OH	Level 1 (inverter-based) and Level 2 (< 2 MW)
DC	Tier 1 screen for inverter, single-phase, no construction; Tier 2 screen for < 500 kW non-synch generators on distribution at or below 38 kV
IL	Level 1 screen; Level 2 expedited review (placed in queue, studies)
VA	Level 1 (< 500 kW) screen; Level 2 (< 2MW) placed in queue

PA	Third party design and construction should be accommodated
NJ	Allowed
MD	Allowed based upon customer-gen, EDC agreement
OH	Allowed based upon customer-gen, EDC agreement
DC	No mention in codes
IL	Third party design and construction accommodated
VA	No mention in codes

PA	EDC not required to construct on system to accommodate
NJ	No mention in codes
MD	EDC not required to construct on system to accommodate
OH	Interconnection customer's responsibility
DC	Disqualifies from Tier 1 screen, otherwise no mention
IL	If no system modifications, process is expedited
VA	No mention in codes
