

# 745 implementation – transition plan

DRS

February 14, 2012

- PJM will terminate existing economic registration with end date  $\leq 3/31/12$ .
- PJM will deploy new eLRS version ~3/12/12
  - PJM will implement as early as possible
- CSP must create new registration in eLRS (can copy terminated registration)
  - Go through CBL certification process
    - Submit Load Data
    - Calculate RMSE
- CSP must submit registration
- LSE/EDC registration approval
- Registration participates in market under new compensation rules
- Economic registrations that did not go through CBL certification process will be terminated by PJM EOD 3/31/12.
  - Registration that will only participate in Regulation or SR will use MBL, request exception from PJM and then re-apply for Reg/AS (PJM will not require re-certification)

Energy market participation under old rules

3/31/12 – registration end date

3/12 – submit new registration (CBL pre-certification)

Energy market participation under Order 745 rules

4/1/12 – registration start date

- 4/1/12 – all key rules in effect
  - Compensation
  - Cost Allocation
  - M&V
    - Many load data request expected to EDC
  - Dispatch Group
- Electronic Notification
  - Implementation in eLRS planned for 3/30/12
  - Email notification will remain in place through 6/30/12.
    - PJM will not be responsible for timely delivery of email over the internet
    - Revisit the need to maintain email approach through June in May. (do we need to maintain longer?)
