

**Demand Response Subcommittee
WebEx/Conference Call
Nov 9, 2022
9:00 am – 11:00 pm EPT**

Administration (9:00 - 9:15)

1. Welcome, Announcements and Anti-trust and Code of Conduct announcement
 - A. WebEx report will be used for attendance
 - B. Review prior minutes – 9/02/2022 meeting
 - C. Request for any additional agenda items
 - D. Brief update/discussion of DR related activity in other stakeholder groups – MIC, OC, PC, or other
 - a. 5 CPs were published on pjmc.com
 - b. Summer 2022 Add Backs available in DR Hub

(9:15 – 9:35) Consolidation of DIRS / DRS in new DISRS (DISTRIBUTED Resource Subcommittee)

2. Pete Langbein provided an update on the consolidation of the DRS and DIRS. The DRS will be sunset after the December meeting with future activity as the new DISRS in January '23.

(9:35 – 9:40) PJM Winter EP Drill Results

Presentation

3. Jack O'Neill discussed the results of the recent Winter Drill that was conducted on November 3, 2022. CSP All Call acknowledgement was good with most acknowledgements happening on the first call attempt. As a reminder, DR Hub electronic notification (web service) is PJM's primary means to deliver dispatch instructions to Load Management DR.

(9:40 – 10:00) Inadvertent Dispatch of Load Management in DOM_Ashburn subzone

4. Jack O'Neill and Pete Langbein discussed the 10/26/22 inadvertent dispatch of Load Management in the new DOM_Ashburn subzone, reiterating the primary means of Load Management dispatch as DR Hub electronic notification. Supportive LM dispatch information can be found on PJM's emergency procedures website.

(10:00 – 11:00) DR/PRD Compliance Construct for Weather Sensitive Load

Matrix

5. Pete Langbein solicited input on existing matrix and components. Exelon discussed their proposed solution documented in the matrix and stakeholders were given the opportunity to discuss presented solutions and provide feedback or alternative solutions. PJM indicated concerns with the proposed solution since DR is already accredited the Forecast Pool Requirement which includes reserves for load above the normal load forecast and may try to represent real time energy load reduction as capacity load reductions. It is also not clear how to determine if a registration is "weather sensitive" and the feasibility/criteria for PJM to evaluate and approve the PAI weather normalization process. PJM will put together use cases for the next meeting to help drive out the details.

Future Agenda Items

Participants will have the opportunity to request the addition of any new item(s) to the agenda of a future meeting.

Antitrust:

You may not discuss any topics that violate, or that might appear to violate, the antitrust laws including but not limited to agreements between or among competitors regarding prices, bid and offer practices, availability of service, product design, terms of sale, division of markets, allocation of customers or any other activity that might unreasonably restrain competition. If any of these items are discussed the chair will re-direct the conversation. If the conversation still persists, parties will be asked to leave the meeting or the meeting will be adjourned.

Code of Conduct:

As a mandatory condition of attendance at today's meeting, attendees agree to adhere to the PJM Code of Conduct as detailed in PJM Manual M-34 section 4.5, including, but not limited to, participants' responsibilities and rules regarding the dissemination of meeting discussion and materials.

Public Meetings/Media Participation:

Unless otherwise noted, PJM stakeholder meetings are open to the public and to members of the media. Members of the media are asked to announce their attendance at all PJM stakeholder meetings at the beginning of the meeting or at the point they join a meeting already in progress. Members of the Media are reminded that speakers at PJM meetings cannot be quoted without explicit permission from the speaker. PJM Members are reminded that "detailed transcriptional meeting notes" and white board notes from "brainstorming sessions" shall not be disseminated. Stakeholders are also not allowed to create audio, video or online recordings of PJM meetings. PJM may create audio, video or online recordings of stakeholder meetings for internal and training purposes, and your participation at such meetings indicates your consent to the same.

Participant Identification in WebEx:

When logging into the WebEx desktop client, please enter your real first and last name as well as a valid email address. Be sure to select the "call me" option. PJM support staff continuously monitors WebEx connections during stakeholder meetings. Anonymous users or those using false usernames or emails will be dropped from the teleconference.
