- All existing fields are editable
- Decision Point 1 form is new
- Elect Phase 2 unless notified by PJM of acceleration eligibility
- One file or zip per category
- Must Save and Validate then move onto the Review tab to submit

The screenshot shows a web form titled "Queue Point" with a navigation bar containing tabs: "Queue Attachments", "New Service Requests", "Submitted Queue Requests", "Submitted Cycle Requests", and "Attachment N - System Impact Study". The "Attachment N - System Impact Study" tab is active. On the left is a sidebar menu with options: "General Information", "Point of Interconnection", "Project Capability", "Generator Information", "Transformer Information", "Attachment Line Data", "Decision Point 1", "Review", and "Confirmation". The "Decision Point 1" section is expanded, showing a text block explaining the requirements for a New Service Request to remain in the Cycle. Below this are two radio button options: "I elect to proceed to Phase 2" (selected) and "I have been notified by PJM that I am eligible and elect to proceed to final agreement." The "Readiness Deposit" section includes a field for "Readiness deposit No. 2*" with a value of "\$0.00". Below this is a section for "Upload the letter of credit or provide the wire transfer details for the Readiness Deposit*", with radio buttons for "Letter of credit" and "Wire transfer details" (selected). The "Wire transfer details" section includes fields for "Wire transfer confirmation" (with the instruction "Letters and numbers only") and "Bank account name". At the bottom is a large text area for "Readiness Deposit Comments".

- SecureShare is used for all site control documents that are too large to be uploaded into Queue Point
- New mailbox for all site control SecureShare submissions:
IPSecureShare@pjm.com
- Send all site control SecureShare submissions to the new mailbox AND your PJM PM with the Queue Number in the subject line
- Instructions for using SecureShare: <https://pjm.com/markets-and-operations/etools/secure-share>

- Developers must click Submit to complete the submission process. Drafts will not be reviewed.
- A confirmation email will be sent upon submission. Contact the PJM PM if a confirmation email is not received.

The screenshot shows a web form titled "Review" for "Decision Point 1". On the left is a navigation menu with options: General Information, Point of Interconnection, Project Capability, Generator Information, Transformer Information, Collector System Equivalent, Attachment Line Data, Decision Point 1, Review (selected), and Confirmation. The main content area is titled "General Information" and contains the following fields:

Queue number	Project name
Name of a signature authority from company	Title
Interconnection Customer (Company Name)	Federal Tax ID
Phone (day)	Phone (evening)

Below the fields is a large text area for "Additional Comments" containing a signature. At the bottom, there is a checkbox labeled "I certify that all information entered on this form is complete and accurate." which is checked. A "Submit" button is located to the right of the checkbox. A red-bordered box highlights the bottom section, containing the text: "The form cannot be submitted until all required fields are saved and validated."

- DP1 record status will change from “In Progress” to “Submitted” once submitted to PJM.
- Unsatisfactory submissions will be marked Data Deficient and must be updated within 5 Business Days.
- Approved submissions will have a status of Approved with a stage of Phase 2. No further action is required from the developer.
