

**Intermittent Resource Subcommittee**  
**PJM Conference and Training Center**  
**March 13, 2019**  
**1:00 p.m. – 3:00 p.m. EPT**

## Administration

Mr. Ken Schuyler opened the meeting and reviewed the Agenda.

Mr. Joseph Carl reviewed the Anti-Trust and Code of Conduct and performed the roll call.

The meeting minutes from the December 10, 2018 meeting were approved.

## Education

Ms. Sue Glatz provided information on Merchant Transmission for Offshore Wind Development. PJM has received requests for interconnection of radial non-controllable AC transmission lines without defined generation and these projects have requested to receive interconnection rights. Under PJM's current rules, such requests are not eligible for interconnection rights. Ms. Glatz covered the initial steps needed to explore the options for studying such interconnections to be eligible for interconnection rights.

Mr. Patricio Rocha-Garrido discussed the proposed changes to Manual 21 on the Calculation of Capacity Values for Wind and Solar Capacity Resources. PJM's proposal is to replace its current wind/solar capacity value calculation with an Effective Load Carrying Capability (ELCC) approach. If enacted the Manual 21 revisions would become effective May 1, 2019.

Mr. Chad Hutchinson provided a preview of the redesigned home page for [pjm.com](http://pjm.com). The live preview provided a demonstration of new features, navigation and increased visibility of system conditions.
