

Dominion Data Center – Table in 2023 Load Forecast (B9)

Load Analysis Subcommittee
June 26, 2023

Molly Mooney
Resource Adequacy Planning

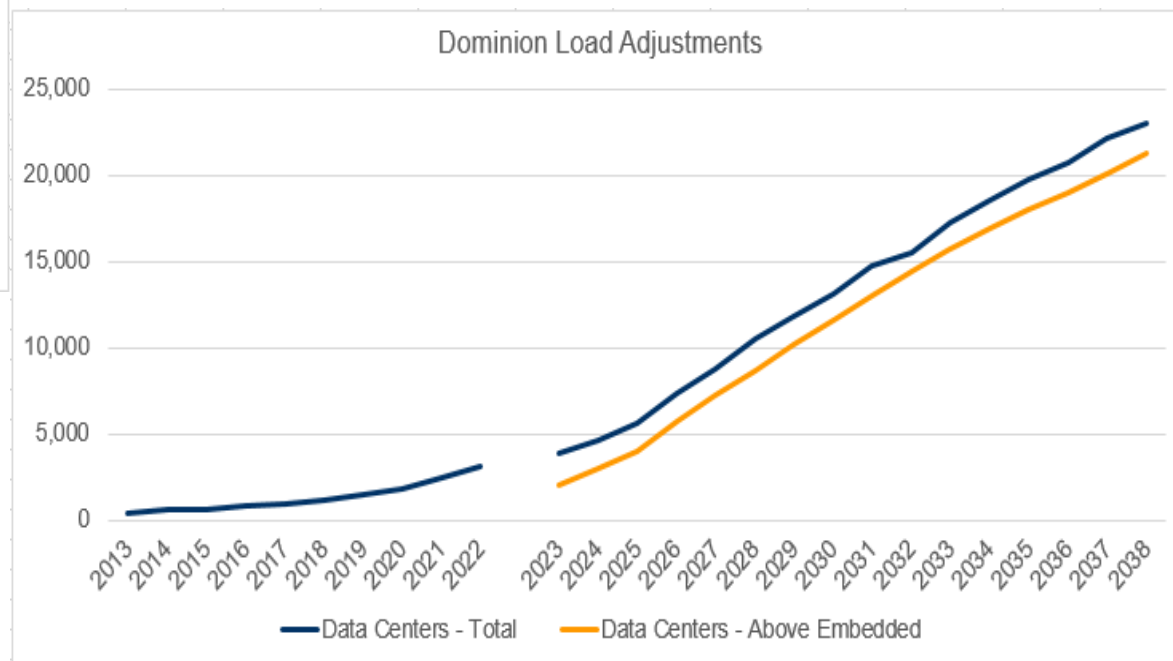

- Prior to the 2023 Load Forecast Report Table B9 showed the amount of load adjustment in excess of the embedded amount of adjustment already in history.
- In the 2023 Load Forecast PJM showed values for Dominion (“DOM”) that reflected the total amount of data center load.
- Updated Table B9 now reflects the amount that the forecast is increased considering the adjustment above what would have been embedded.
