

Large Load Adjustments

Load Analysis Subcommittee
July 29, 2024

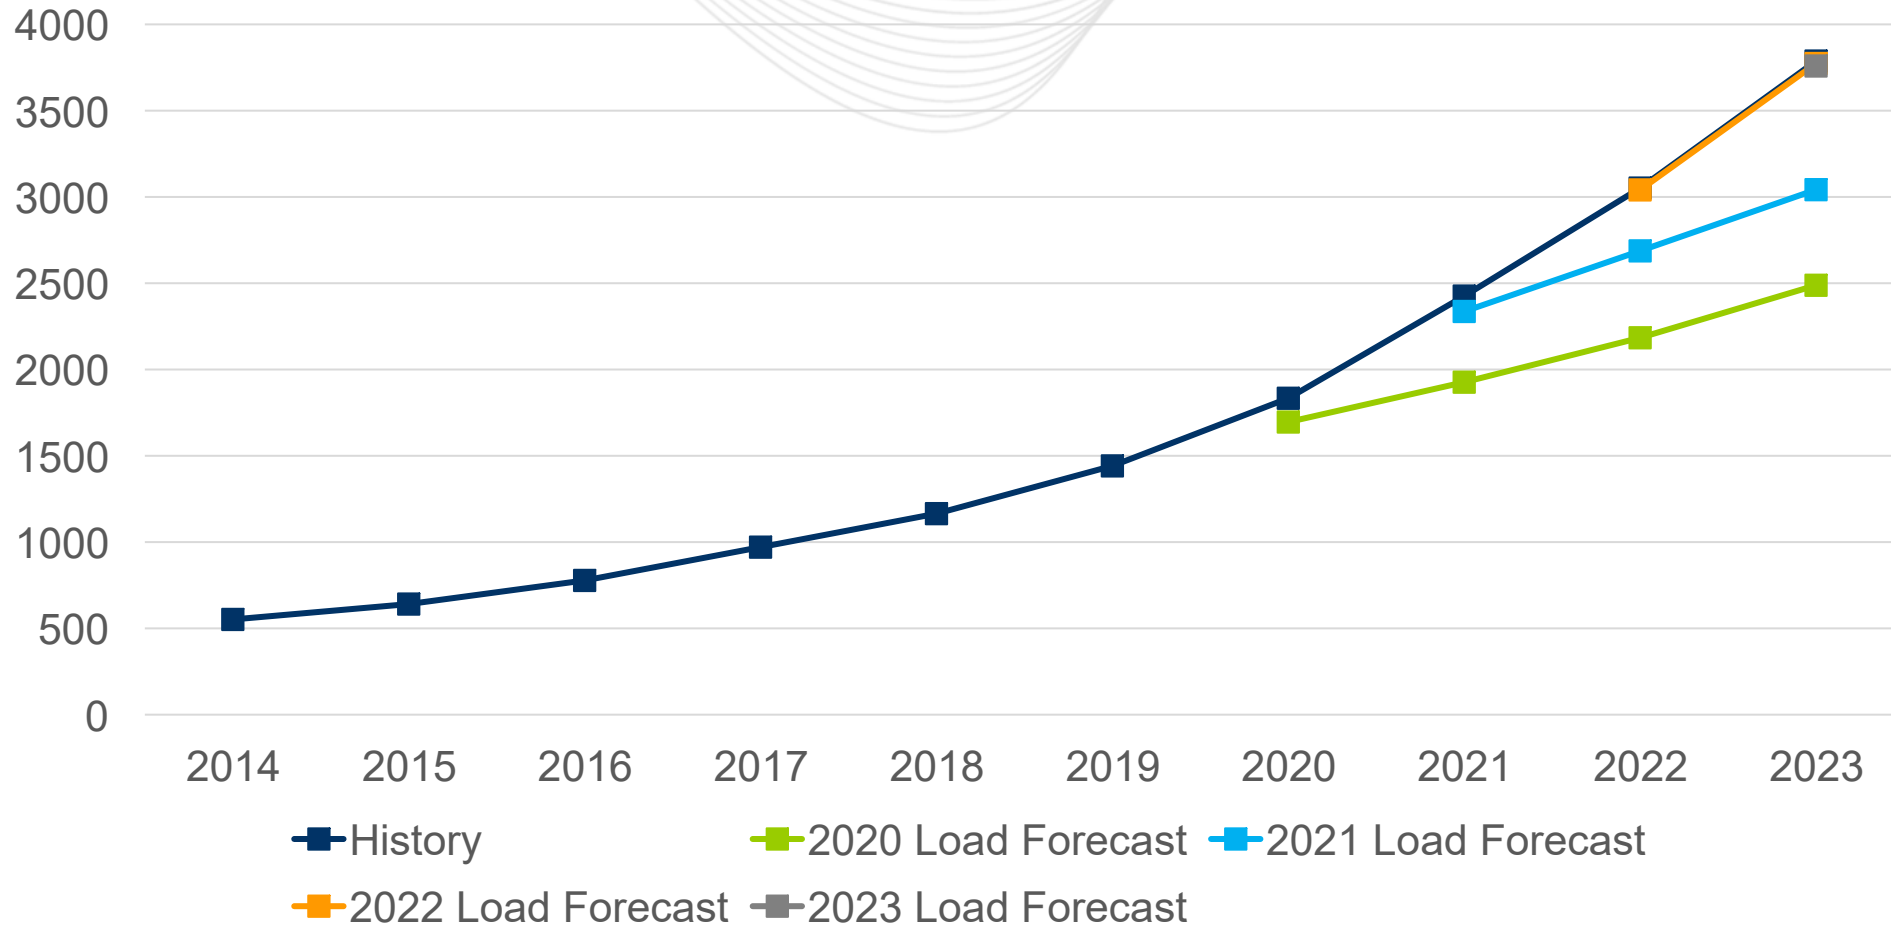

Andrew Gledhill
Resource Adequacy Planning

- Capacity Obligations for Forecasted Large Load Adjustments
 - [Issue Tracking](#)
 - [FERC Filing ER24-2447](#)
- Members had requested follow-up on
 - Load adjustment forecast accuracy
 - Load adjustment request process

- Stakeholder request to have feedback on adjustment request accuracy.
- Looked at data center requests in Dominion TO zone back to 2020
 - Evaluated under current methodology
 - Compared with data center loads
 - Chose July weekday HE17 load as point of comparison

Dominion Data Center MWs on July Weekday @ HE17

- Manual 19 Attachment B: Load Forecast Adjustment Guidelines
 - Allows for EDCs and LSEs to submit
 - Requests location of load adjustment
 - ***Are there suggestions for amendments to the language in the context of ER24-2447?***
- [Load Forecast Adjustment Template](#)
 - Asks for identification of zone/area
