DR Hub Event Testing Schedule

May 5, 2017

- DR Hub test Events:
  - PJM will perform event testing in the Train environment. The objective is to provide validation of custom data structures as well as testing communication between CSPs and the DR Hub host site.
  - Load Management Tests are available by request in the Train environment.
  - Economic RT and SR testing is also available by request. The CSP is responsible for ensuring confirmed registrations are in place for testing.

- The Test Event Schedule:
  - Load Management testing will begin ~0930.
  - Load Management testing will end ~1330.
  - Economic testing will begin as scheduled by the CSP.
  - Testing will not be performed on PJM holidays.
  - A complete list of Zones, Products and other variables to be tested are found on the next slide.
  - Please respond with any questions to the DR Hub Support Group
  - DRHubSupport@pjm.com.

Zone	Resource Type		Lead Time			Product			
AECO	Pre-Emergency		Quick			LDR	XDR	ADR	CPDR
