

Dear Office of the Interconnection,

I am writing to officially initiate the deactivation request for the Virginia Beach generation unit, as per the guidelines outlined in Section 9.1.1 of the PJM Manual.

Please find below the necessary details regarding this deactivation:

Unit: Resource Name: VIRGINIA BEACH LF, Resource Id: 96602101 is being permanently retired.

Desired Date of Deactivation: As soon as possible per Section 9.1.1 of the PJM Manual April 1st 2023.

Additional Information: There is no anticipated return to service for this unit.

We understand that upon receipt of this notice, the Office of the Interconnection will inform relevant departments within PJM, including PJM Planning, PJM Law Department, PJM Markets, PJM Operations, and the Independent Market Monitor. Additionally, we are aware that the appropriate Transmission Owner(s) will be notified of this request with our agreement.

We acknowledge that this request will be subject to a preliminary analysis by PJM and will be posted publicly on the PJM website as part of the official deactivation process. We are prepared to provide any further necessary information and cooperate fully during the analysis phase.

Thank you for your attention to this matter. We look forward to a smooth deactivation process and await your guidance on the next steps.

Sincerely,

Guy Chapman
